Community Project Supporter: Enviro Tree Services Ltd

The Parish Council is pleased to recognise the support of **Enviro Tree Services Ltd**, who have generously donated towards community projects within Alvanley.

Enviro Tree Services Ltd is a specialist **tree surgery and arboricultural consultancy** providing a comprehensive range of domestic and commercial arboricultural services across Merseyside and the North West. With more than 20 years of industry experience, the company works with a wide range of clients including homeowners, social housing providers, local authorities and commercial organisations.

Earlier this year, Enviro Tree Services Ltd carried out crown lifting works to the trees at the top of **Primrose Lane**, creating the clearance required for the installation of the village's new Christmas lights. This practical support has helped enhance the festive appearance of the village and contributed to a project that will be enjoyed by residents and visitors alike.

The Parish Council is grateful for both the company's financial contribution and its ongoing support for local community initiatives. Contributions from businesses such as Enviro Tree Services Ltd help the Council deliver community projects and improvements without increasing the financial burden on local taxpayers.

Services provided by Enviro Tree Services Ltd include:

- Tree felling and tree removal
- Tree pruning and crown management
- Crown thinning
- Crown reduction
- Crown lifting
- Tree dismantling
- Target pruning
- Pollarding
- Coppicing
- Formative pruning
- Stump grinding and stump removal
- Hedge cutting, trimming and removal

- Scrub clearance
- Highway tree management
- Tree surveys and professional reports
- Emergency tree services
- Arboricultural consultancy services

All works are undertaken in accordance with **BS3998 Tree Work Recommendations** and current industry best practice, ensuring a professional, safe and environmentally responsible approach to tree management.

The company combines practical arboricultural expertise with professional consultancy services, enabling it to provide effective solutions for everything from individual garden trees to large-scale commercial and highway tree management projects.
